A BETTER VIEWING EXPERIENCE = BETTER AD PERFORMANCE

Commercial Innovation is a suite of concepts that reimagine the traditional commercial viewing experience, seamlessly blending advertising and content to smartly engage the consumer and drive impact for marketers. To date, NBCUniversal has introduced over 62 new innovations that create personalized experiences through innovative formats, content and products, across linear and digital. We prioritize serving consumers first, giving them the best experiences while making authentic connections between brands and our audiences.
CHECK OUT OUR NEW SUITE COMMERCIAL INNOVATIONS FOR 2022 BELOW:

The 2022 slate of new ad products and formats provide marketers with unique ways to engage consumers through advertising within the metaverse, creative development studio, across social channels and more.
