2022 Landscape
Overview Of Key Telco Marketplace Dynamics
As providers continue to roll out faster networks,

Consumers weigh the benefits of 5G adoption
Telcos Adjust To New Challenges And Opportunities In 2022

Consumers enjoyed faster, more reliable coverage

The recent Infrastructure Bill and Affordable Connectivity Act includes major state funding for new broadband infrastructure, and discounts for eligible homes on broadband and connected devices.

Telco giants focus on CapEx

Given the fierce competition for “best provider” status, telcos shifted dollars from marketing and instead prioritized developing infrastructure necessary to win the 5G race.

Inflation crept onto phone bills

Across nearly every major provider, phone bills spiked. Despite the competitive market, providers see these hikes as a necessary gamble and more increases are expected in coming months.

Wireless sees slowing customer growth

Following the extreme telco boom post-pandemic, customer growth numbers are expected to cool. Now, telcos are consolidating support around wireless products and focusing on upgraders for growth.

Internet providers push fiber offerings

As we continue pushing out more data, broadband providers are leaning heavily into fiber-optic internet service for significantly faster download and upload speeds vs. traditional DSL and copper cabled internet.
Telco Forward-looking Trends

Key Trends We Expect To Influence Telco Marketing & Media Strategies
LOOKING AHEAD,
Key Telco Trends We Expect to Influence Marketing & Media Strategies

- 5G Drives Demand for Future-Looking Tech
- B2B Opportunity with Private Networks
- Pre-Paid Expands its Base
- Broadband Gets a Shake-Up
5G Drives Demand for Future-Looking Tech

5G is becoming increasingly necessary to unlock future technologies – from IoT to the metaverse.

As development and adoption grows, 5G providers will be positioned to pursue new tech-centric partnerships, giving them renewed credibility in the tech space.

There will be 4.15 billion IoT devices connected to cellular networks globally by 2024.

Additionally, by 2026, 25% of people will spend an hour per day in the metaverse.

B2B & B2C Benefits of 5G:

- **Increased Speeds**: 5G is anticipated to be ~100x faster vs. current.
- **Reduced Latency**: Time between initiating & resolving an action on a device will be 10X shorter vs. current 4G.
- **Increased Device Capacity**: 5G is designed to support a 100x increase in traffic capacity & network efficiency.
- **Improved Reliability**: All improvements will result in a more consistent network performance.

B2B Opportunity with Private Networks

Lured by new advanced use cases, organizations are evaluating adoption of private cellular networks – provided by companies whose origins are increasingly rooted in big tech.

Private 5G networks allow large enterprises and customers to bring custom-tailored 5G experiences to facilities where high-speed, high-capacity, and low-latency connectivity are crucial.

With many tech brands entering this space, competition among traditional and non-traditional providers will likely drive investment in marketing these new products to target business decision-makers.

By 2030, the private 5G network market size is estimated to generate $31B.

70% of businesses will use the intelligent edge – tech enabled by private 5G networks – by 2023.

748 private network deployments in enterprises worldwide in Jan 2022, up nearly 43% since Sept 2021.

Which Providers are Competing for this Revenue?

- Microsoft
- aruba
- AWS
- Geoverse
- ERISSON
- CISCO

Pre-Paid Expands its Base

In times of economic uncertainty, more diverse consumer groups will look to take advantage of these plans’ low cost and flexibility.

With historic inflation and the threat of a recession, the growth of pre-paid is expected to escalate, facilitated by a host of attractive alternate providers.

To answer demand, providers may shift marketing dollars to promote pre-paid offerings, often in the form of acquired brands e.g., Metro by T-Mobile or AT&T’s Cricket Wireless.

Pre-paid carriers will continue ramping up reach among Hispanic and lower-income consumers as post-paid raised prices for the first time in years...

37% of Hispanic consumers have a pre-paid wireless plan, more than any other ethnicity

48% of consumers making below $25K per year have a pre-paid wireless plan

...While additionally tapping into seniors whose preferences are often suited for pre-paid service:

1. Many are more comfortable with data caps and slower speeds
2. Many are more comfortable with older, non-5G devices
3. Many aren’t interested in bundles e.g., streaming services

Sources: Mintel, S&P Global
Broadband Gets a Shake-Up

Beyond fiber optic, consumers are increasingly interested in innovative broadband technologies such as fixed wireless.

As revenue growth slows in the category, operators will diversify offerings with both fiber and fixed-access – adding new sources of incremental revenue.

These products will require substantial marketing investment to effectively communicate these offerings to curious consumers.

Global Fixed Wireless Access Connections (in millions)

60% of all service providers in the US now offer 5G FWA – with the strongest growth.

SUMMARY

Key Telco Trends We Expect to Influence Marketing & Media Strategies

5G Drives Demand For Future-Looking Tech
5G providers have the opportunity to partner with tech brands developing IoT devices and metaverse technologies and capitalize on those high-profile ties

B2B Opportunity with Private Networks
Private network providers will look towards internet-reliant enterprises as their primary target for growth

Pre-Paid Expands Its Base
Consumers are increasingly seeing the benefits of pre-paid service especially given inflation and recession fears

Broadband Gets a Shake-Up
Consumers are increasingly open to more innovative and affordable ways to access the internet
NBCU Telco Strategic Considerations

Key Considerations For Driving Growth For Telco Brands
**Telco Strategic Considerations**

01. **Align Your Approach with Consumption**
   - Capitalize on evolving consumption patterns and maximize reach with strategic audiences by activating across platforms.

02. **Grow Category Leadership Through Purpose and Cultural Connection**
   - Capture attention and solidify leadership in the highly competitive telco category by aligning with passion point content, influential talent, and cultural moments & events.

03. **Communicate Use Cases with Education**
   - Leverage high impact storytelling approaches to educate and authentically demonstrate your brand's newest products and services.

04. **Engage Multicultural and Upgraders for Growth**
   - Utilize data to relevantly reach multicultural audiences, potential switchers and other key targets across platforms to reinforce brand messaging.

05. **Power Innovation in Web3**
   - Build and contribute to web3 innovation ahead of the curve with trusted partners in this emerging space.

02. Grow Category Leadership Through Purpose & Cultural Connection

Align major brand announcements and promotion with mass reach content, influential talent, and cultural moments

Alignment with IP and Talent

Align your brand with NBCU’s premium, brand-safe, passion point content via sponsorship and integration opportunities

Premier Live Events

Tap into the breakthrough moments and events that shape today’s cultural conversation – cementing category leadership

Cultural Heritage Celebrations

Celebrate growing Multicultural audiences and drive impact by aligning with moments that matter year-round

Live Sports

Utilize the power, passion, and wide reach of live sports for branded integration to demonstrate connective capabilities
Leverage high impact storytelling approaches to educate telco consumers on the use cases of newer services and the benefits that service/equipment upgrades can unlock.

**EDUCATE**

Audiences Through Branded Content

Communicate your brand’s efforts in 5G expansion, enabling IoT devices and fixed wireless. Partner with NBCU to tell your story through branded content that resonates with your target audience.

**INTEGRATE**

With Programming to Demonstrate Use

- Programming Examples
  - Morning Shows
  - Lifestyle Entertainment
  - Multicultural Audiences
  - Sports & Fitness

**ENGAGE**

With Commercial Innovation and Solutions

- Seamlessly blend advertising and content to create engaging and interactive viewing experiences
- Examples include PIP, Interactive Countdown Clock, Pause Ads, Engagement Ads, In-Scene Ads
- Apple News tap-to capabilities can drive users to site, app download, deep link within app, email, chat, map, wallet, etc.
Brands can bring their audiences to match to NBCU IDs or partner to develop custom audiences NBCU can create new custom audiences by combining a variety of data including our own, brand data, and 3rd-party data Audiences can be further expanded through lookalike modeling AdSmart provides seamless connection to NBCU inventory for audience activation

Engage Multicultural and Upgraders for Growth

Utilize audience data and targeting to drive growth with audiences primed for telco marketing and products
05. Power Innovation in Web3

Demonstrate your brand’s innovative leadership in 5G technology by unlocking new immersive experiences for fans

Use NBCU’s One Platform to promote web3 activations

- Take advantage of NBCU’s mass reach to promote your brand’s innovations in web3
- Drive desired engagement with tech-savvy consumers with NBCU’s advanced targeting and data solutions

Leverage NBCU IP for co-branded experiences

- Utilize NBCU IP to co-create meaningful and valuable activations for audiences to experience their fandoms in new mediums
- Co-create NFTs and web3 activations that support shared social impact initiatives

Provide 5G solutions for NBCU web3 programming

- Launch unique and authentic storytelling by deploying your connectivity to power and support NBCU web3 experiences
- Build B2B and B2C trust by demonstrating the power of your network to connect fans to new opportunities
