Harnessing the Power of Data + Targeting for Finance

NBCUniversal
Financial attitudes are shifting...

Demographic Changes

$68 trillion in wealth to be transferred

Millennials & Gen Z prefer to have conversations about long-term financial goals

Consumer Mindset

Financial services trust levels are low…

But the category has seen the highest growth in trust levels (+10%) over the past 10 years

Pandemic Pressures

90% of consumers are anxious about money

62% noted a negative financial impact due to the pandemic

Sources: Cerulli Associates, Edelman Trust Barometer 2022, Quicken Loans, RGA
These shifts continue to create opportunities to reach distinct audiences with relevant messaging

A recent survey showed that 70% of respondents believed knowing more about finances could have helped them manage their money better throughout the pandemic.

Creating relevance with consumers helps to build and strengthen relationships…

- 71% of consumers say that personalization is important, very important, or the most important reason they will join a bank.

- 80% of consumers would be willing to share data in return for personalized and convenient services.

- 33% of consumers who abandon business relationships do so because personalization is lacking.

- 84% of customers say being treated like a person, not a number, is very important to winning their business.

Relevant messaging also impacts the bottom line...

Targeted communications that are relevant and useful can create lasting customer loyalty and drive revenue growth of **10-30%**

**93%** of financial services companies report having more success in converting prospects into customers when they personalize their marketing

Data-activated marketing can boost total sales by **15-20%**
Today, **relevant messaging** via data-driven targeting is often restricted to lower funnel focused media, but an opportunity exists to use **data to drive full funnel impact**
There are many valuable audiences for financial brands

**Age / Gender Demo**
(i.e. A25-54)

- Millennials / Gen Z’ers
- Hispanic A25-54

**Advanced Audiences**
(BROAD)

- Mid-Range Investable Assets
- New Homeowner
- New Parent
- Brand Website Visitor
- Digital Banking Adopters
- Small Business Owners
- Competitive Customer
- Existing Customer

**Macrotargeting**
Targeted Broad Reach
Awareness & Consideration
around brand or product

**Microtargeting**
Precision Targeted Reach
Consideration & Conversion
(Bundling, Upsell, Etc.)

Note: Audiences are illustrative
The journey from awareness to conversion is an ongoing challenge within the finance category.

Maximizing relevant distribution

Macro + Micro Targeting
Holistic Audience Approach

A balanced data-led approach to increase relevance throughout the consumer journey

Macro
Targeted Broad Reach
Example KPIs: Brand or Product Awareness / Digital product consideration

Micro
Precision Targeting
Example KPIs: Consideration / Customer Acquisition / Existing Customer Transformation

Awareness
Consideration
Conversion
A balanced targeting approach can ensure relevant messaging based on consumer needs

**Consumer Need Examples**

- Considering digital / mobile banking features
- Interested in managed service investment opportunities
- Competitive customer who recently visited brand website (prospect)
- Holds checking acct, interested in credit card (existing customer)

**Example Message**

- Promote new digital banking opportunities
- Position relevant wealth mgmt. products
- Demonstrate benefits of joining your bank
- Demonstrate convenience benefits of being a multi-account holder
There is a better way forward

The industry is evolving, moving away from panel-based demos in favor of more efficient, more effective identity-based advanced audience solutions.

We’re changing the way we sell, in favor of audience-based buying.

Advanced Audiences

- Precision targeting across platforms
- More efficient reach and less waste
- Opportunity to test & learn audiences
- More accurate measurement
- AdSmart Data Driven Linear = proven out full funnel impact
CASE STUDY SPOTLIGHT

Driving full funnel impact via advanced targeting
The challenge

Drive customer acquisition at scale
A direct-to-consumer financial technology company that built its customer base largely through digital and social channels wanted to reach a larger prospective audience to maintain their base and drive new adopters.

The insight

Multi-platform maximizes full-funnel impact
Although digital and social channels can drive efficient customer acquisition, they lack the scale and engagement of NBCU’s reach through premium content on every screen. Employing a targeted multi-platform media strategy with NBCU drives full-funnel impact, from awareness to action to acquisition at scale.

The solution

Target customers across platforms
We used the client’s first-party data to create a scalable target audience, which we activated across NBCU’s premium national linear TV, desktop & mobile video, and display content.
The approach
Advanced targeting to reach customers across the NBCU portfolio on every screen.

The results
To measure the full-funnel impact of the campaign, we leveraged YouGov for pre- vs. post-campaign brand metrics and partnered with Data Plus Math for direct web attribution.

Brand metrics increased significantly vs. pre-campaign

- Lift in brand awareness: +9%
- Lift in brand opinion: +33%
- Lift in brand purchase intent: +30%

AdSmart campaign exposure drove double-digit lift in site visits & app installs

- Lift in website visits: +28%
- Lift in home page visits: +52%
- Lift in mobile app downloads: +27%

AdSmart campaign exposure drove double-digit lift in sign-ups & completed registrations

- Lift in web sign-ups: +27%
- Lift in mobile app sign-ups: +25%
- Lift in completed web registrations: +24%
- Lift in completed mobile app registrations: +33%
Maximize the power of data at scale across premium content on all viewing platforms

Additional Case Studies
The challenge

Drive tax filing conversions
A leading tax services provider wanted to leverage advanced TV targeting to improve conversion for their services online and in their retail locations.

The insight

Use the best of both data worlds
By combining the advertiser’s 1st-party CRM file with 3rd-party data from Acxiom, we were able to scale the target audience to reach existing customers as well as users of competing providers to encourage them to switch services.

The solution

Target tax service users via advanced TV
We partnered with the client to run an AdSmart data-driven linear campaign and two AdSmart addressable campaigns, both of which were targeted across our portfolio to reach custom LiveRamp segments (comprising retail tax filers and online/DIY tax filers) instead of a traditional Nielsen demo.
The approach

Advanced TV targeting to reach the right consumers across NBCU’s linear portfolio.

The results

We commissioned two custom LiveRamp studies to measure the impact of the AdSmart campaigns on driving tax filing conversion in the advertiser’s retail locations and online.

National linear exposure to AdSmart drove lift for tax filings overall and among target audience

+6% overall conversion lift

+5% target conversion lift

4X higher conversion among target HHs vs. non-target

68% of target converter HHs filed in a retail location

AdSmart drove lift for tax filings among both addressable target audiences

+19% overall conversion lift across both targets

+42% conversion lift among retail filer target HHs, with 90% filing in a retail location

+14% conversion lift among online/DIY filer target HHs, with 87% filing online
The challenge

Drive tax filing conversions
A leading tax services provider wanted to leverage advanced TV targeting to improve conversion for their services online and in their retail locations.

The insight

Use 1st-party data to reach the right target
With an already engaged audience, our client was able to leverage advanced TV targeting to create a lookalike target of their own 1st-party data to focus solely on reaching & acquiring new customers (by suppressing their existing customers from the lookalike modeled audience segments).

The solution

Target tax service users via advanced TV
We partnered with the client to run an AdSmart addressable campaign across our portfolio to reach a custom TransUnion lookalike target modeled from the client’s 1st-party data (comprising retail tax filers and online/DIY tax filers) instead of a traditional Nielsen demo.
The approach
Advanced TV targeting to reach the right consumers across NBCU’s VOD on set-top boxes and Hulu.

The results
We commissioned a custom Data Plus Math study to measure the impact of the AdSmart campaigns on driving tax filing conversion in the advertiser’s retail locations and online.

AdSmart drove lift for tax filings overall
+10% overall lift in tax filing conversion rate
+10% lift in online/DIY tax filing conversion rate
+10% lift in retail tax filing conversion rate

2020 campaign results vs. 2019 campaign results
+66% more efficient cost per conversion in 2020 vs. 2019
+2.5% higher tax filings conversion rate in 2020 vs. 2019
The challenge

Drive perception & consideration
A leading insurance company wanted to leverage advanced targeting on linear TV to drive perception and consideration for life insurance among existing customers.

The insight

Encourage policy bundling
Policy bundling is an essential strategy for insurance companies to increase customer lifetime value, and advanced targeting is a great way to cross-sell existing customers.

The solution

Target insurance customers via national TV
We partnered with the client to run an AdSmart national TV campaign optimized across our portfolio to reach their existing insurance customers instead of a traditional Nielsen demo.
The approach
Advanced TV targeting to reach the right consumers across NBCU's linear portfolio.

The results
NBCU commissioned a custom Kantar Millward Brown study to measure the impact of AdSmart campaign on driving perception and consideration for the client.

AdSmart exposure drove brand impact, especially among target HHs

- **+20%** ad recall lift among target HHs exposed to AdSmart campaign vs. unexposed
- **+54%** higher ad recall lift among target HHs exposed to AdSmart campaign vs. non-target
- **+34%** message recall among target HHs exposed to AdSmart campaign vs. unexposed
- **+182%** higher message recall among target HHs exposed to AdSmart campaign vs. non-target
- **+5%** purchase consideration lift among target HHs exposed to AdSmart campaign vs. unexposed
- **+89%** higher purchase consideration among target HHs exposed to AdSmart campaign vs. non-target
The challenge

Drive site traffic
A leading mutual life insurance company wanted to leverage advanced targeting on linear TV to drive site traffic to their website, especially among parents planning for their children’s future.

The insight

Connect with consumers when they need you most
Adjusting to big life changes like parenthood can be overwhelming, and with so many options for life insurance and financial services, it can be hard to know where to even start. Advanced targeting is a great way for your brand to stand out from the crowd and connect these consumers with the advisors and plans that are right for them.

The solution

Target in-market consumers via national TV
We partnered with the client to run an AdSmart national TV campaign optimized across our portfolio to reach a custom MRI “New and Motivated Parents” target instead of a traditional Nielsen demo.
The approach
Advanced TV targeting to reach the right consumers across NBCU’s linear portfolio.

AdSmart exposure drove site traffic vs. non-AdSmart TV exposure

+20% overall lift in visitation to all pages
+54% overall lift in visitation to financial advisor pages
+66% in-target lift in visitation to financial advisor pages

AdSmart top-performing networks drove double-digit visitation lift vs. non-AdSmart TV exposure

+104% lift in visitation from CNBC exposure
+60% lift in visitation from Universal Kids exposure
+44% lift in visitation from Golf Channel exposure

The results
NBCU commissioned a custom Data Plus Math study to measure the incremental impact of the AdSmart campaign on driving traffic to the client’s website.
